About FDP

The Faculty Development Program (FDP) on "Integrating AI and Digital Humanities in Teaching and Learning" is designed to bridge the gap between technology and the humanities by empowering educators with AI-driven tools and techniques. This program will explore how artificial intelligence can enrich the study of language, literature, history, and culture through advanced data analysis, text mining, and visualization. Participants will learn to use digital platforms that support interactive learning, collaborative research, and innovative content delivery. Emphasis will be placed on ethical considerations and the critical role of human judgment in the age of automation. The FDP aims to foster interdisciplinary approaches, encouraging educators to blend traditional humanistic inquiry with modern technological tools. Practical sessions and case studies will enable hands-on experience with AI applications in the humanities. This initiative will help educators reimagine pedagogy and research in a digitally evolving academic landscape.
